

High Resolution Video DVI to VGA Converter

StarTech ID: DVI2VGACON

StarTech.com's DVI2VGACON DVI to VGA Converter converts a DVI-D (digital) video signal to a VGA (analog) video signal, saving you time and money by eliminating the need to purchase a new digital display.

The DVI-D VGA adapter is simple to install and does not require an external power source; simply connect the DVI-D output port to the adapter using the included DVI cable, then connect a VGA monitor/projector to the VGA port on the adapter.

Applications and Solutions

- A great way to make use of older display technology with a newer signal source
- Connect your DVI video source (i.e. cable or satellite set top box, computer) to a VGA or HDTV display
- The DVI-D to VGA adapter converts DVI-D video input to Analog VGA output. A DVI source can be displayed onto a VGA or HDTV display using a VGA connector

Features

- Compact form factor
- DDC2B emulation ensures compatibility between display and source signal
- Supports resolutions up to 1600x1200 or 1680x1050 (widescreen)
