Lenovo

Young professionals today demand intuitive work devices that make working on-the-go convenient and productive. This lightweight ultra-slim delights users with modern features like the fingerprint sensor integrated power button for instant logins, Thunderbolt 4 port for up to 40Gbps data transfers, and Modern Standby for automatic download of updates and notifications even with the device lid closed. Latest Intel processors and improved cooling technology ensure reliable performance even with extended use.

REASONS TO BUY

The 14" FHD display with razor-thin bezels gives ample screen real estate to view web pages, application interfaces or static/video content. The anti-spill design offers protection against accidental spills that may happen when working from home or at the office.

Equipped with TPM2.0 chip that enables Windows 10 security features and can encrypt all confidential user data in the device. The camera comes with a built-in shutter to protect user privacy.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
